At Tiger Cranes, our #1 priority is to build cranes with industry leading performance — not just on paper, but out in the real world, every time and everywhere. Each Tiger Crane is designed and thoroughly tested to provide full rated lifting capacity with a full cable drum and at a usable reach. Tiger Cranes hydraulic lift and extension cylinders are sized to not only hold full loads, but will boom them as well. Tiger Cranes have been time proven reliable from the coal mines of China, and the tar sands of Northern Canada, to the jungles of South America. Experience Tiger Strong — Unleash the Power on your next service vehicle.
